I guess there is no one out there, who can help me out.

Better ask this in forums. I believe there are plugins that deal with that kind of things, you should look at plugins page.

Hello Gurvan,

Actually i have gone through all possible plugins but yet could not find anything that even satisfies some of my requirement.

Hi Ami,
Currently there is no plugin which can meet your requirement. Easy Redmine team has published a plugin for calculated custom field value
http://www.redmine.org/plugins/calculated-custom-fields
but i think this acts correctly only in their theme.

Hi Lajish!

Thanks for your response. Yes, i know the plugin for EasyRedmine but it would not work for Redmine.

We need same for Redmine itself.

I clicked the duplicates expecting to find some resolution..

Where do I donate to make this specific feature happen?
