

## Redmine - Patch #18047

### MailHandler: Don't use String#respond\_to?(:force\_encoding) to differentiate between Ruby 1.8 and Ruby 1.9

2014-10-08 14:32 - Felix Schäfer

<b>Target version:</b>	2.6.0		
<b>Description</b>			
<p>In <a href="#">source/trunk/app/models/mail_handler.rb@13413#L424</a>, whether String#force_encoding is defined is used to make a decision about Mail::RubyVer, which defines pick_encoding on everything but Ruby 1.8.</p> <p>This is dangerous as it couples knowledge about Ruby 1.8 (String#force_encoding is not defined) with knowledge about the Mail gem internals (Mail::RubyVer.pick_encoding is not defined on 1.8), there is no guarantee that this will always be the case though.</p> <p>The attached patch checks whether Mail::RubyVer.pick_encoding is defined before using it instead of using the indirection through whether String#force_encoding is defined or not.</p>

- Related to Patch #15785: Support more character encodings in incoming emails added

##### #2 - 2014-10-08 16:13 - Toshi MARUYAMA

- Category set to Email receiving

- Target version set to 2.6.0

##### #3 - 2014-10-08 16:54 - Toshi MARUYAMA

- Subject changed from Don't use String#respond\_to?(:force\_encoding) to differentiate between Ruby 1.8 and Ruby 1.9 to MailHandler: Don't use String#respond\_to?(:force\_encoding) to differentiate between Ruby 1.8 and Ruby 1.9

##### #4 - 2014-10-09 05:27 - Toshi MARUYAMA

- Status changed from New to Closed

Committed in trunk [r13432](#), thanks.

Rails 4 dropped Ruby 1.8 support.  
So, Rails 4 branch [r13255](#) removed this check.

##### #5 - 2014-10-09 09:12 - Felix Schäfer

Great, thanks!
