

## Redmine - Patch #18390

### Better RTL css for the system

2014-11-20 00:52 - Yehuda Deutsch

<b>Status:</b> Closed	<b>Start date:</b>
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 0%
<b>Category:</b> UI	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b> 3.0.0	
<b>Description</b> Some issues might still exist, especially the issue of inline CSS used in too many places, but this one provides a pretty good option for now. Notice: This patch is mainly a clone of application.css with RTL overrides, but it is better than before and there is more to come.  We originally worked on the 2.4.3 version of application/rtl.css, but I fitted it to meet the master branch version.  File: public/stylesheets/rtl.css Branch: master  Credit: <a href="#">Elad Shechter</a> @ <a href="#">Walla!</a> He did it on work hours so I thought credit is in place.  RTL users, please try it out and notify me of anything.
