Redmine - Defect #1859

"class=selected" could not be applied

2008-09-05 06:35 - Harry Yamamoto

Status:	Closed		Start date:	2008-09-05
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	UI		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	
Description				
"class=selected" could not be applied after you clicked a plugin menu in the navigator.				

History

#1 - 2008-09-05 14:55 - Jean-Philippe Lang

- Target version deleted (0.7.3)

#2 - 2008-09-18 02:43 - Harry Yamamoto

Redmine.org also has this problem.
The download button in the navigator will not be highlighted after you clicked it.instead the wiki button is highlighted.

#3 - 2008-10-02 03:11 - Eric Davis

- Status changed from New to 7

- Assignee set to Eric Davis

What does the plugin code look like because it's working for me on several of my plugins:

```
  menu :project_menu, :timesheet, {:controller => 'timesheet', :action => 'index'}, :caption =>
:timesheet_title
```

This is because the Download tab is a link to a wiki page. You can tell by the right sidebar displaying the wiki information.

#4 - 2008-10-25 06:04 - Eric Davis

- Status changed from 7 to Closed

- Assignee deleted (Eric Davis)

- Resolution set to Invalid

Closing, no response from issue author and I cannot reproduce. Reopen if necessary. Thanks.
