TimeEntry acts_as_activity_provider scope should joins(:project) (#18818).

Patch by Ondřej Ezr.

History

#1 - 2015-02-02 13:53 - Toshi MARUYAMA

- Target version set to 3.0.0

#2 - 2015-02-07 10:11 - Jean-Philippe Lang

- Subject changed from TimeEntry acts_as_activity_provider scope to TimeEntry acts_as_activity_provider scope should joins(:project)

- Category set to Code cleanup/refactoring

- Status changed from New to Closed

- Assignee set to Jean-Philippe Lang

Committed in [r13971](#), thanks.

#3 - 2015-03-08 13:23 - Toshi MARUYAMA

For the record:

:scope => preload(:project) was introduced by [r13482](#) ([#14534](#)).

```
=== (+11,-5) app/models/time_entry.rb ===  
@@ -35,7 +35,7 @@
```

```
  acts_as_activity_provider :timestamp => "#{table_name}.created_on",  
                           :author_key => :user_id,  
-                           :find_options => {:include => :project}  
+                           :scope => preload(:project)
```

So target [3.0.0](#) is no need.

But [3.0.0](#) was already released.
