**Description**

I have a project where the homepage URL is 71 characters long - this is too long for Redmine.

I think the homepage field should allow at least 100 characters.

- Status changed from New to Closed
- Target version set to 0.8
- Resolution set to Fixed

This was fixed in [r1457](#). Field is now (and in future 0.8 release) 255 chars long.
