Category:	REST API		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Cant reproduce		**Affected version:**	3.0.0

Description

Hi,

The following REST request worked fine in Redmine 2.6.x:

```
PUT /issues/5558.xml HTTP/1.1
Content-Length: 91
Content-Type: text/xml; charset=UTF-8
Host: redmine.server.com:80
Connection: Keep-Alive
User-Agent: Apache-HttpClient/4.1.1 (java 1.5)
Authorization: Basic httpbasicpassword.....==

<issue><id>5558</id><notes>test comment,please ignore</notes></issue>
```

Since upgrading to Redmine 3.0.0 the server responds with a HTTP 200 but no new journal entry is committed to the database.

Revision 14046 - 2015-03-07 08:31 - Jean-Philippe Lang

Adds a test for #19270.

History

#1 - 2015-03-07 08:33 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Cant reproduce

Works fine for me, I've added a test for this in r14046 and it passes.
Please reopen if you can provide more details about how to reproduce this.
