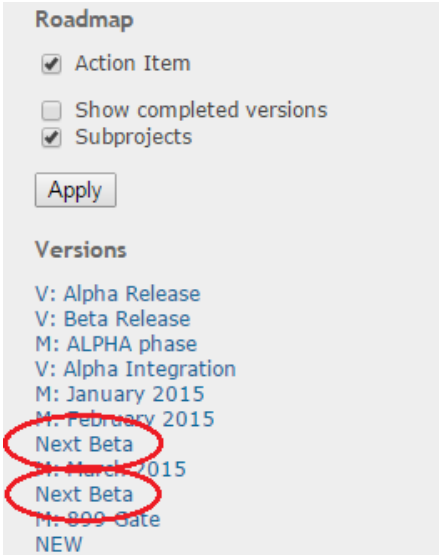
| **Target version:** | 2.6.3 | | |
| **Resolution:** | Fixed | **Affected version:** | 2.6.2 |

**Description**

In r13325 a change has been done to remove project name for not shared versions but now when showing a Roadmap including sub-projects, sub-project name is not added to not shared versions from sub-projects and it is not clear what the versions are for.



I don't know for what use cases the change was done but it seems that wrong logic operator has been used, AND should be used instead OR.

```
def format_version_name(version)
  if !version.shared? && version.project == @project
    h(version)
  else
    h("#{version.project} - #{version}")
```

### Associated revisions

**Revision 14108 - 2015-03-15 15:05 - Jean-Philippe Lang**

Restored project name as version prefix when different (#19348).

**Revision 14109 - 2015-03-15 15:06 - Jean-Philippe Lang**

Merged r14108 (#19348).

**Revision 14110 - 2015-03-15 15:08 - Jean-Philippe Lang**

Merged r14108 (#19348).

### History

**#1 - 2015-03-15 11:35 - Jean-Philippe Lang**

*- Target version set to 2.6.3*

**#2 - 2015-03-15 15:08 - Jean-Philippe Lang**

*- Status changed from New to Closed*

*- Assignee set to Jean-Philippe Lang*

*- Resolution set to Fixed*
