Redmine - Defect #1937

URLs with colons

2008-09-23 16:40 - Alvaro Aguilera

Status:	Closed	**Start date:**	2008-09-23
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:		**Estimated time:**	0.00 hour
Target version:	0.8		
Resolution:	Fixed	**Affected version:**	

Description
When creating a new project you can use an URL containing colons in the "homepage" field. The problem is that in the project overview those URLs are displayed wrong. (the is inserted right before the colon, instead of at the end).

Associated revisions

Revision 1940 - 2008-10-18 12:42 - Jean-Philippe Lang

link_to project homepage instead of auto_link (#1937).

History

#1 - 2008-10-13 13:00 - Alvaro Aguilera

here is an example of such urls:

http://host.domain.com/wiki/doku.php?id=namespace:categoy:page_name

#2 - 2008-10-18 12:35 - Jean-Philippe Lang

- Status changed from New to Closed

- Target version set to 0.8
