Redmine - Defect #19538

Keywords in commit messages: journal entries are created even if nothing was changed

2015-03-31 20:30 - Lukas Pirl

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:	Jean-Philippe Lang		**% Done:**	0%
Category:	SCM		**Estimated time:**	0.00 hour
Target version:	2.6.4			
Resolution:	Fixed		**Affected version:**	2.6.0

Description

Regarding [Referencing issues in commit messages](#):

Assume I have configured the keyword "feedback" to set an issue status to feedback.
Further, issue #42 is already set to feedback.
Now I commit with a message "feedback #42".

Actual result: The issue is updated with the journal entry "Applied in changeset …".

Desired result: Since in fact nothing changes/was applied, the issue should not get an additional journal entry.
