Redmine - Patch #19546

Change default display mode for PDF Export to OneColumn

2015-04-01 23:40 - Marcel Müller

Target version:	3.1.0		

Description

Currently redmine sets no display-mode when exporting to PDF using the rbpdfs default mode. When viewing an exported PDF on Acrobat Reader it scrolls very slowly and not fluently from page to page. Therefore I'd like to see setting the default display mode to "OneColumn" instead, fixing both issues. See attached patch.
