Target version:	3.0.3	Affected version:	3.0.2
Resolution:	Fixed		
Description			
Creating a new issue fails with a validation message "% done is not valid" when then field has been removed for the tracker.			
Temporarily solved the problem by changing issue.rb:			
<pre>def clear_disabled_fields if tracker tracker.disabled_core_fields.each do attribute send "#{attribute}=", nil unless attribute == "done_ratio" end end end</pre>			
Environment:			
Redmine version 3.0.2.stable.14229

Hi,
The done_ratio column is not null (mysql) in my database.
So, I change issue.rb this way

```
validates_inclusion_of :done_ratio, :in => 0..100, :if => Proc.new {|issue| issue.done_ratio=0 unless issue.disabled_core_fields.include?(:done_ratio); issue.disabled_core_fields.include?(:done_ratio)}
```

Hope this helps.
