Target version:	2.6.6			
Resolution:	Fixed		**Affected version:**	2.6.5

Description

We're using redmine 2.6.5. When you're creating a new version from the prjoect settings and try to write a log description (greatest of 255 characters) an internal error is shown.

Reviewing logs an error in the database appears with the message: "value too long for type character varying(255)"

It appears that the maximum size of the description of the versions is not checked.
