## History

---

### #1 - 2015-05-19 09:54 - Petr Šourek

- Status changed from *New* to *Resolved*

I have repaired it (dunno if it is correct) by logging into database and setting:

```
alter table only journals alter column private_notes set default false;
```

### #2 - 2015-05-23 09:18 - Jean-Philippe Lang

- Status changed from *Resolved* to *Closed*

- Resolution set to *Invalid*

This column was created with default set to false: [source:trunk/db/migrate/20120930112914\\_add\\_journals\\_private\\_notes.rb](source:trunk/db/migrate/20120930112914_add_journals_private_notes.rb)
