

Redmine - Defect #19995

Can't apply textile modifiers to 1 non-ASCII character

2015-06-02 17:01 - Алексей Городецкий

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Text formatting	Estimated time:	0.00 hour
Target version:	3.1.0	Affected version:	2.6.5
Resolution:	Fixed		

Description

incorrectly displays the markup text if the text is in bold Russian one-letter word. With the word, and then with the English words he works better.

Sample text with bold-letter Russian word:

```
a* *тест
```

Sample text with bold-letter English word:

```
a test
```

The text in these examples should show the same: both words fat, no asterisks in the text
