Target version:	0.8		
Resolution:	Fixed	**Affected version:**	

Description

SO I had two ldap auth methods and wanted to delete one of them. Because the one I wanted to delete still had user assigned to the method it would not delete. After I removed the user it would successfully delete but until then there where no error messages. Only when it was sucessfull was there a flash message.

Associated revisions

Revision 1944 - 2008-10-24 17:39 - Jean-Philippe Lang

AuthSource list: display associated users count and disable 'Delete' buton if any (#2041).

History

#1 - 2008-10-24 17:33 - Jean-Philippe Lang

- Status changed from New to Closed

- Target version set to 0.8

- Resolution set to Fixed

Behaviour changed in r1944:

- associated users count is displayed on the auth sources list
- 'Delete' buton is disabled if some users are associated
