Redmine - Defect #20543

Mail handler: don't allow override of some attributes by default

2015-08-17 12:18 - Alexander Ryabinovskiy

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:	Jean-Philippe Lang		**% Done:**	0%
Category:	Email receiving		**Estimated time:**	0.00 hour
Target version:	3.2.0			
Resolution:	Fixed		**Affected version:**	3.1.0

Description

```
Environment:
Redmine version                3.1.0.stable
Ruby version                   2.0.0-p645 (2015-04-13) [i386-mingw32]
Rails version                  4.2.3
Environment                    production
Database adapter               SQLServer
```

1. I replied to email notification from Redmine about the issue (with "RE: [test - Work #1198] in subject):

```
Issue #1198 has been reported by Ryabinovskiy Alexander.

Work #1198: test issue from email
•    Author: Ryabinovskiy Alexander
•    Status: New
•    Priority: Low
•    Assignee: Developer2
•    Category:
•    Target version:

Project: test2
Test issue description
```

2. I ran command on server:

```
rake redmine:email:receive_pop3 unknown_user=accept host=comp.local port=110 username=redmine@comp
.local password=XXX allow_override=project,tracker,priority project=test
```

3. Issue #1198 was updated: **Status, Priority, Target version, Assignee was changed**, and **Project did not**. But I used only **allow_override=project,tracker,priority option**!

Associated revisions

Revision 14680 - 2015-10-17 10:00 - Jean-Philippe Lang

Mail handler: no attributes overridable by default (#20543).

Revision 14681 - 2015-10-17 11:08 - Jean-Philippe Lang

Mail Handler: add support for allow_override=all (#20543).

History

#1 - 2015-08-17 12:18 - Alexander Ryabinovskiy

- Copied from Defect #20454: Mail handler: unwanted assignment to a group occurs added

#2 - 2015-09-13 16:29 - Jean-Philippe Lang

- Target version changed from 3.1.1 to 3.2.0

#3 - 2015-10-17 11:11 - Jean-Philippe Lang

- Subject changed from Mail handler: allow_override option does not work to Mail handler: don't allow override of some attributes by default

- Status changed from New to Closed

- Resolution set to Fixed

Indeed, some attributes were always overridable and this was not documented. This behaviour is now removed, all attributes have to be explicitly listed with the allow_override option to be overridable.

For those who want all attributes to be overridable, allow_override=all can now be used.

#4 - 2015-10-19 15:26 - Deoren Moor

I've updated the [RedmineReceivingEmails](#) page to match these changes. Thanks for fixing this.
