Target version:				
Resolution:	Invalid		**Affected version:**	

Description

I have some user deleted before. Try to create user with previously entered user's email and got the error "Email has already been taken".

Checked that the email_addresses table still have the old mail and id info. but the ID is already deleted from the users table.

History

#1 - 2015-10-06 08:08 - Go MAEDA

- Status changed from New to Needs feedback

I cannot reproduce it. There seems no problem in app/models/user.rb.

source:branches/3.0-stable/app/models/user.rb@14285#L85:

```
  has_many :email_addresses, :dependent => :delete_all
```

Could you please describe the procedure to reproduce?

#2 - 2017-09-21 15:29 - Go MAEDA

- Status changed from Needs feedback to Closed

- Resolution set to Invalid

I am closing this issue because we have not received any feedback from the author for 2 years.
