Redmine - Defect #20984

Unable to update priority on parent task even when "independent of subtasks" is selected

Target version:			
Resolution:	Duplicate	**Affected version:**	3.1.0

Description

Hi,

My system settings:

```
Environment:
  Redmine version                3.1.0.stable.14520
  Ruby version                   2.2.3-p173 (2015-08-18) [x86_64-linux]
  Rails version                  4.2.3
  Environment                    production
  Database adapter               PostgreSQL
SCM:
  Subversion                     1.8.10
  Git                            2.1.4
  Filesystem
Redmine plugins:
  redmine_checklists             3.1.1
  redmine_contacts               4.0.2
```

When I create a task, then assign a subtask to it, I immediately lose the ability to change the priority of the parent task, even when I have priority set to being "independent of subtasks".

Should I not be able to modify the priority?
