Description

When getting issues with the REST api, the journal flag private_notes isn't included.

I've solved the problem on my local copy by modifying one files:

- views/issues/show.api.rsb

    - add

```
api.private_notes journal.private_notes
```

I have added the test-code on Tiago Cândido 's patch: adds_issue_journal_private_notes_to_api.diff
and I made sure that all tests passed on latest trunk (r15327).
I would be very happy if I could see the feature in Redmine 3.3.0.
