

Redmine - Defect #20993

auto-importing GPG signature file

2015-10-15 01:31 - Monty Cantsin

Status:	Closed	Start date:	
Priority:	Low	Due date:	
Assignee:		% Done:	0%
Category:	Email receiving	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Duplicate		
Description			
<p>When replying to a Redmine mail by e-mail, with a GPG signed mail, redmine automatically adds the attached signature file (signature.asc) to the respective issue/task of the project.</p> <p>For users using GPG signed e-mails by default, this adds a lot of unnecessary editing, - deleting of signature.asc files, - in Redmine.</p> <p>Would be nice to have a filter within redmine that recognizes such files.</p>
