Redmine - Defect #2101

Bazaar repository browsing

2008-10-27 22:56 - Dmitry Shaposhnik

Status:	Closed		**Start date:**	2008-10-27
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	SCM		**Estimated time:**	0.00 hour
Target version:	0.8			
Resolution:	Fixed		**Affected version:**	

Description

When you are using bzr like svn (checkout, commit/update) you get just .bzr folder on server, no project files within.
That's why you should use not **bzr ls**, but **bzr ls -r -1**. In such way it will list files from latest revision stored in repository.
I posted patch some time ago (#1685), but it isn't accepted yet.

Associated revisions

Revision 1994 - 2008-11-08 16:28 - Jean-Philippe Lang

Fixed Bazaar shared repository browsing (#2101, patch #1685 by Dmitry Shaposhnik).

History

#1 - 2008-11-08 16:28 - Jean-Philippe Lang

- Status changed from New to Closed

- Target version set to 0.8

- Resolution set to Fixed

Patch #1685 committed in r1994.
Thanks.

#2 - 2009-07-24 16:12 - Jiongliang Zhang

If there is no any revisions, **bzr ls -r -1** has error:

```
D:\>bzr ls bzr-test\branch -r -1
bzr: ERROR: Requested revision: u'-1' does not exist in branch: BzrBranch6('file:///D:/bzr-test/branch/')
```

But **bzr ls** no error:

```
D:\>bzr ls bzr-test\branch

D:\>
```

my Bazaar version is 1.16, I havn't test it in Redmine repository.
