

## Redmine - Defect #21075

### User without role in project is not shown as a selection option in Author filter (Issues tab)

2015-10-26 19:00 - Deoren Moor

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Issues filter	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	3.1.1
<b>Resolution:</b>	Duplicate		
<b>Description</b>			
Scenario:			
<ol style="list-style-type: none"><li>1. User submits an issue</li><li>2. Issue is moved from an area where they do have access to one where they do not</li><li>3. Dev goes to search for all tickets authored by the user in a project where the author does not have permission (or even at the global level)</li><li>4. User is not in the list of Authors that can be applied via a filter</li></ol>			
Workaround:			
<ol style="list-style-type: none"><li>1. Add user to project as reporter</li><li>2. User is now selectable in the Authors filter</li></ol>			
All of our installations are at version 3.1.1, so I'm unsure when this first occurred.

## History

### #1 - 2016-01-24 15:34 - Christian Buczek

Another Scenario goes in the same direction:

- user *A* creates a issue
- issue were assigned to user *B*
- admin deactivate user *A*
  - other scenario: admin only removes *A* from project
- user *B* is available to assigne issue to *A*

There are two point for discussion:

- is it ok, that an issue is still longer assigned to an user who were removed?
  - maybe: yes...
- is it ok, that an issue can be assigned to a user who is still removed from the project or still deactivated?
  - in my opinion: nope.

(seen this fail in version 3.1.2 and 3.2.0)

### #2 - 2017-11-05 08:08 - Go MAEDA

- Category changed from *Issues* to *Issues filter*

- *Status changed from New to Closed*
- *Resolution set to Duplicate*

This feature is not implemented yet but I am closing this issue as a duplicate of #1875.

**#3 - 2017-11-05 08:08 - Go MAEDA**

- *Duplicates Feature #1875: Issue filtering on author only uses members of project added*
