

Redmine - Feature #21106

Ability to add attachments (print screens) via notes edit.

Description Redmine does not have ability to add file attachments via 'notes edit'. If I edit the issue, save it, and forgot to add attachment, I cannot edit issue and add it later. The main reason for it in my case - We can add print screens to Issues, and there are no problem with issue edit. But when I edit notes - I cannot add print screen, as they request new file attachment to be added to issue itself. Edit issue only for this, is way an overhead.
