

Redmine - Defect #2131

Delimiter of numbers incorrect in german language

2008-11-04 14:43 - Carl Gneisenau

Status:	Closed	Start date:	2008-11-04
Priority:	Normal	Due date:

Category:	Translations	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Fixed		
Description			
If you have setup up redmine with "german" as default language, the number will the delimited by a dot. But the correct delimiter is a comma. So this is leading to not capable of being totaled in excel, when the data will be exported as cvs.			

History

Hi Carl,
can you give a little more details where you created a CSV and what kind of report you requested.
I have done that for the issues where time tracking record are associated with numbers like 1.5 hours etc.
After the CSV export i get exactly what expected (1,5) which can used perfectly with Excel.

Kind regards
Karl Heinz Marbaise

#2 - 2009-05-08 16:04 - Joerg Jans

Hi there,

I have the same problem. Is there a known solution?

My user account is set to "German". When I generate a report "Spent time" for a given project all time values are shown with "." as decimal delimiter.
After the export to a file the same delimiter are used there.

Regards,
Jörg

- *Category set to Translations*
- *Status changed from New to Closed*
- *Resolution set to Fixed*

The CSV decimal separator in config/locales/de.yml is set to ','.
