

## Redmine - Defect #2134

### CVS does not handle aliases

2008-11-05 12:03 - Leszek Ciesielski

<b>Status:</b>	New	<b>Start date:</b>	2008-11-05
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	SCM	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	
<b>Resolution:</b>			
<b>Description</b>			
When one adds a CVS alias as the SCM module, Redmine imports it without reporting errors, but the import is broken: it does not recurse into subdirectories (only the first level is scanned). Also, the repository browser shows only the first level directories/files, outputting "The entry or revision was not found in the repository." when trying to descend.			

### History

#### #1 - 2012-09-12 13:37 - Maciej Maczynski

Any news about this issue during last 4 years?  
I've observed this problem as well with Redmine 1.3.0.
