Description

I think this is caused by r2010 but the Users display format is only showing the firstname_lastname format. Notice they are all "Eric Davis" and not "edavis", "Davis Eric", or "Davis, Eric"

```
<select name="settings[user_format]" id="settings[user_format]">
  <option selected="selected" value="firstname_lastname">Eric Davis</option>
  <option value="username">Eric Davis</option>
  <option value="firstname">Eric Davis</option>
  <option value="lastname_firstname">Eric Davis</option>
  <option value="lastname_coma_firstname">Eric Davis</option>
</select>
</pre>
```
