- Target version set to 3.3.0

Updated the patch for the compatibility with trunk [r15148](#).

"Related issues" already have these three classes (see the following). "Subtasks" should also have these classes for consistency.

source:trunk/app/views/issues/_relations.html.erb@15068#L19:

```
<td class="status"><%= other_issue.status.name %></td>
<td class="start_date"><%= format_date(other_issue.start_date) %></td>
<td class="due_date"><%= format_date(other_issue.due_date) %></td>
```

Setting target version to 3.3.0.
