Redmine - Feature #2181

Display more statistics about a user on the account page

Description

I think it would be interesting to see some more activity statistics on a user's account page (/account/show/n).

- Number of forum messages
- Number of issue notes
- Number of SCM changesets

How to setup /account/show/<id> as Welcome Page?

I've found some map.connect on routers.rb, but I don't know how to pass ID as parameter.

// works for fixed ID=3
map.home '', :controller => 'account', :action => 'show', :id => '3'

// works for fixed ID=3
map.home '', :controller => 'account', :action => 'show', :id => ????

+1

#5 - 2012-11-02 12:04 - Daniel Felix

I added some relations. I think those two tickets (#4864 and #2181) would complement each other greatly.

User stats create an air of aspiration, and make the users want to contribute more. Here's a patch that applies to debian redmine (1.0.2).

Even cooler if one could give users "rank" like in other boards, attainable only by contributing more.
