

## Redmine - Defect #22331

### bundler error: Ruby 1.9.3 = "mime-types-data requires Ruby version >= 2.0."

2016-03-28 18:36 - Deoren Moor

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	3.1.5	<b>Affected version:</b>	3.1.0
<b>Resolution:</b>	Fixed		
<b>Description</b>			
Error message encountered when running bundle update from my Redmine installation directory:			
<pre>Gem::InstallError: mime-types-data requires Ruby version &gt;= 2.0. An error occurred while installing mime-types-data (3.2016.0221), and Bundler cannot continue. Make sure that `gem install mime-types-data -v '3.2016.0221'` succeeds before bundling.</pre>			
Redmine installation details (taken once I restored the installation directory from backup):			
<pre>sh: 1: darcs: not found sh: 1: cvs: not found sh: 1: bzip2: not found Environment:   Redmine version      3.2.0.stable.14966   Ruby version         1.9.3-p0 (2011-10-30) [i686-linux]   Rails version        4.2.5.1   Environment          production   Database adapter     Mysql2 SCM:   Subversion           1.6.17   Mercurial            2.0.2   Git                  1.7.9.5   Filesystem Redmine plugins:   no plugin installed</pre>			
Does Redmine still support Ruby 1.9.3? I looked at the <a href="#">RedmineInstall</a> page and it is still listed there. From what I can recall you guys don't have a habit of switching requirements in the middle of maintaining a branch, so I figured this was something that folks just haven't reported yet.			
P.S.			
I use a Subversion tag for the installation. I then just switch tags when it is time to upgrade to a new version and then run the applicable upgrade steps.			

#### Associated revisions

##### Revision 15274 - 2016-03-24 06:20 - Toshi MARUYAMA

Gemfile: switch mime-types version by Ruby >= 2.0 or not

##### Revision 15276 - 2016-03-24 06:53 - Toshi MARUYAMA

Merged r15274 from trunk to 3.2-stable

Gemfile: switch mime-types version by Ruby >= 2.0 or not

##### Revision 15277 - 2016-03-24 06:54 - Toshi MARUYAMA

Merged r15274 from trunk to 3.1-stable

Gemfile: switch mime-types version by Ruby >= 2.0 or not

## History

---

### #1 - 2016-03-29 03:49 - Toshi MARUYAMA

- Subject changed from Redmine 3.2.0 to 3.2.1 upgrade attempt with Ruby 1.9.3 = "mime-types-data requires Ruby version >= 2.0." to Ruby 1.9.3 = "mime-types-data requires Ruby version >= 2.0."
- Category deleted (Ruby support)
- Priority changed from High to Normal
- Target version set to 3.1.5
- Affected version changed from 3.2.0 to 3.1.0

### #2 - 2016-03-29 03:52 - Toshi MARUYAMA

- Status changed from New to Closed
- Resolution set to Fixed

Try [r15277](#).

### #3 - 2016-03-29 04:01 - Toshi MARUYAMA

- Subject changed from Ruby 1.9.3 = "mime-types-data requires Ruby version >= 2.0." to bundler error: Ruby 1.9.3 = "mime-types-data requires Ruby version >= 2.0."

### #4 - 2016-03-29 05:27 - Deoren Moor

Try [r15277](#).

Thanks! I modified Gemfile to include that change and it allowed me to complete the 3.2.0 to 3.2.1 upgrade without issue.
