

Redmine - Feature #22771

Option to send email notifications while importing issues from CSV files

2016-05-09 06:28 - Go MAEDA

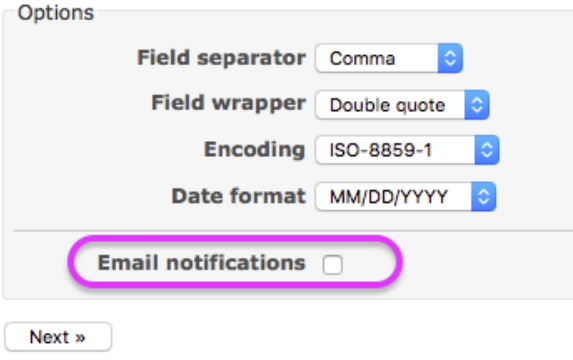

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Email notifications	Estimated time:	0.00 hour
Target version:	4.1.0		
Resolution:	Fixed		

Description

All email notifications are disabled for CSV import ([source:trunk/app/models/issue_import.rb@15238#L65](#)). Since no notifications are sent, assignees can't recognize issues which created and assigned by CSV importer unless they see issues list on screen.

I think it would be nice if users can choose either disable or enable email notifications when performing CSV import operation.

Import issues

The screenshot shows a form titled 'Import issues' with a section for 'Options'. It contains four dropdown menus: 'Field separator' (Comma), 'Field wrapper' (Double quote), 'Encoding' (ISO-8859-1), and 'Date format' (MM/DD/YYYY). Below these is a checkbox labeled 'Email notifications' which is highlighted with a pink circle. A 'Next >' button is at the bottom.

Associated revisions

Revision 18153 - 2019-05-10 02:54 - Go MAEDA

Option to send email notifications while importing issues from CSV files (#22771).

Patch by Yuichi HARADA.

Revision 18154 - 2019-05-10 03:44 - Go MAEDA

Update locales (#22771).

+1

I do not know that I added issues because there is no notifications.

I made a patch, and attach it.

- Target version set to Candidate for next major release

#3 - 2019-05-09 11:50 - Go MAEDA

- File 22771-another-label.diff added

- File label_import_notifications@2x.png added

- Target version changed from Candidate for next major release to 4.1.0

I have slightly modified the patch. Now the text of the label for the checkbox has the same style as label_project_copy_notifications.

```
label_project_copy_notifications: Send email notifications during the project copy  
label_import_notifications: Send email notifications during the import
```

Import issues

Options

Field separator	Comma
Field wrapper	Double quote
Encoding	ISO-8859-1
Date format	MM/DD/YYYY

Send email notifications during the import
