

## Redmine - Feature #23119

### Hook for deleted issues

2016-06-20 13:02 - César DJ Caésar 9114

|   |                                  |
|---|----------------------------------|
| <b>Status:</b> New  | <b>Start date:</b>               |
| <b>Priority:</b> Normal   | <b>Due date:</b>                 |
| <b>Assignee:</b>  | <b>% Done:</b> 0%                |
| <b>Category:</b> Hook requests  | <b>Estimated time:</b> 0.00 hour |
| <b>Target version:</b>  |                                  |
| <b>Resolution:</b>  |                                  |
| <b>Description</b><br>Hello,<br>I saw the <a href="#">list of hooks</a> and I'd like to know if it was possible to have a new hook letting us doing things when an issue is deleted.<br>Why not:<br><br><pre>:controller_issues_before_destroy<br/>:controller_issues_after_destroy</pre> |                                  |

### History

#### #1 - 2017-08-11 07:48 - Shreyas Moolya

These Hooks can then be used to maintain a recycle bin in Redmine.

#### #2 - 2017-08-14 15:46 - Holger Just

You can already use the basic ActiveRecord callbacks on the Issue model, which include `before_destroy` and `after_destroy` callbacks. Please check the [Documentation](#) for details on how to use them. You can register your own model callbacks by adding a simple declarative model patch in your plugin.

If you still do need those Redmine hooks, please describe in more detail how they can be useful to solve the problem in a way that the standard ActiveRecord callbacks can not.
