

Redmine - Patch #23146

Show revision details using the same structure and look from the journals details

2016-06-23 12:26 - Marius BĂLTEANU

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	UI	Estimated time:	0.00 hour
Target version:	3.4.0		
Description			
In #23027 was proposed to use lighter colors for revision details in order to make the commit messages more obvious. This patch integrates that changes and also adds the following changes:			
<ol style="list-style-type: none">1. move the committer author element above the revision details2. show the revision details (ID, Parent, Child) with bullet points and indented to right in the same way how the issue attributes are shown in the journals3. move the user avatar for commit author from revision number element to author element			
Current trunk: before.png			
Only with the patch from #23027 : 23027.png			
With the attached patch: after.png			
Regarding the CSS rules, I preferred to add them to the existing journals rules and not to duplicates them.
