

Redmine - Defect #23206

Wrong filters are applied when exporting issues to CSV with blank filter

2016-06-30 08:48 - Go MAEDA

| Category: | Issues filter | Estimated time: | 0.00 hour |
| Target version: | 3.2.4 | Affected version: | 3.2.1 |
| Resolution: | Fixed | | |
| Description Steps to reproduce: 1. Go to "Issues" page. 2. Clear "Status" check box in "Filters" and click apply. You will see all (open and closed) issues in the project. 3. Export issues to a CSV file by clicking "CSV" link. The CSV file should contain open and closed issues, but actually it contains open issues only. No problem in 3.1-stable. Maybe this is a regression caused by #22108 . Attached a patch to fix this problem. | | | |
