You mean in the issue list?

I can add a css class on those tickets so that any kind of style can be applied to them.

Yeah I mean the issue list as well as my issues.
A CSS class would be a good solution.

Thanks

The overdue css class is added in [r2140](#) so you can use it in your own theme.
But no change were done for now on application.css.

Thanks it is really usefull, but closed tickets should not be overdue since they are closed.
Could you fix this little issue, then this Ticket can be closed imho.

#6 - 2009-02-03 18:27 - Jean-Philippe Lang

- Status changed from New to Closed
- Target version set to 0.9.0
- Resolution set to Fixed

Fixed in [r2361](#).

Why this fix don't work in the latest remine version ?
Overdue issues are look like others.

As stated by Jean-Philippe in note-4 and as mentioned by myself in [#9294](#) note-1 overdue-issue highlighting is not used in any of the bundled themes. To add it to a custom theme, see [#9294](#) for examples.
