

Redmine - Defect #23377

Don't show "status" field when creating a new version

2016-07-19 19:18 - Tobias Fischer

Status:	Closed	Start date:	
Priority:	High	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Roadmap	Estimated time:	0.00 hour
Target version:	3.4.0	Affected version:	3.3.0
Resolution:	Fixed		
Description			
When creating a new version from within the issue form field with the modal dialogue, the "status" option should be hidden. It makes no sense to set this newly created version to "closed" or "locked" because then, it isn't selectable from the issue form field.			
<i>Defect duplicate of Feature #21416 as Feature request don't get ANY attention by the Redmine team. And in fact, this one here could also be called a bug instead of a feature...</i>

Don't show "status" field when creating a new version (#23377).

History

I agree, this option makes no sense here.

A quick fix for your instance, if this is causing user issues would be to hide it via CSS

Add to your theme application.css:

```
/* Hide version status selection in version create dialog */
.ui-dialog .new_version p:nth-child(3) {
  display: none;
}
```

Hi Jake,

thanks for the smooth workaround. Werks very well!

#3 - 2016-07-25 01:55 - Marius BĂLTEANU

- File `do_not_show_status_field_on_new_version_form.patch` added

I made a patch that fixes/implements this without CSS.

The patch passes all the tests and adds two new assertions:

1. new version form doesn't contains the status field
2. edit version form contains the status field.

In my opinion it makes no sense in all pages from where you can add new versions, not only in the modal dialogue. I think there are very few cases

when you want to add a locked/closed version.

#5 - 2016-07-25 08:20 - Go MAEDA

- *Target version set to 3.4.0*

I agree with you.

Thanks for the patch. It looks good to me.
Setting target version to 3.4.0.

Yeah, totally agree with you! :)

Thanks for the patch! Looking forward to see this implemented!
