This is the according stack trace:

```

lib/redmine/wiki_formatting/markdown/formatter.rb:28:in `link'
lib/redmine/wiki_formatting/markdown/formatter.rb:60:in `render'
lib/redmine/wiki_formatting/markdown/formatter.rb:60:in `to_html'
lib/redmine/wiki_formatting.rb:89:in `to_html'

app/controllers/wiki_controller.rb:114:in `show'

```

It is most probably the missing URI which processed in a not nil save manner which is causing the crash.

I cannot reproduce it either with [r15607](#) applied.

You can try it for yourself, Andreas, just apply this to your instance:
