Target version:	3.4.0			
Resolution:	Fixed		**Affected version:**	3.3.0

Description

Hi,
i have disabled "Select project modules" for a role! this is the default role assigned to the user when creating new projects
from now on he cannot select modules on 'project settings' form (correct behaviour)

unfortunatelly he can still select modules on the 'new project' form!

My environment:
Platform Ubuntu Server 14.04.4 LTS

```
Environment:
  Redmine version                3.3.0.stable
  Ruby version                   2.3.0-p0 (2015-12-25) [x86_64-linux]
  Rails version                  4.2.6
  Environment                    production
  Database adapter               Mysql2
SCM:
  Filesystem
Redmine plugins:
  redmine_checklists             3.1.3
  redmine_contacts               4.0.4
  redmine_custom_help_url        0.0.2
  redmine_dmsf                   1.5.6
  redmine_favorite_projects      2.0.2
  redmine_ics_export             3.0.1.dev
  redmine_language_change        0.1.0
  redmine_monitoring_controlling 0.1.1
  redmine_people                 1.2.0
  redmine_stats                  0.0.3
  redmine_xlsx_format_issue_exporter 0.1.2
  sidebar_hide                   0.0.7
```

- Status changed from Closed to Reopened

Hi,
sorry but after upgrade files taken from [r15752](#) i can still select modules on "new project form"

steps to reproduce:

1. Administrator -> Settings -> Projects -> Role given to a non-admin user who creates a project -> "test1"
2. Administrator -> Settings -> Roles and permissions -> "test1" -> Project -> Select project modules -> UNCHECK
3. login as a "non admin" user
4. Projects -> New project

in this form Modules section still show up with the ability to select / deselect modules

same environment

Kind regards,

#7 - 2016-08-31 11:27 - Matteo Arceci

after some other tests i found that the problem is only in the view that still show up the "Modules fieldset"
check / uncheck modules as no effect on the new project created

- Status changed from Reopened to Closed

Sorry, I'm not able to reproduce and there's a test for this exact use case that was added with the fix.
Make sure that you have properly applied the fix.
