

Redmine - Defect #23558

IssueImportTest#test_should_not_import_with_default_tracker_when_tracker_is_invalid fails randomly

2016-08-10 12:14 - Stefan Rinkes

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Code cleanup/refactoring	Estimated time:	0.00 hour
Target version:	3.3.1	Affected version:	3.3.0
Resolution:	Fixed		

Description

To test redmine plugins, I also run redmine tests to verify the plugin doesn't screw things up.

But sometimes I get this Test Failure:

```
1) Failure:
IssueImportTest#test_should_not_import_with_default_tracker_when_tracker_is_invalid [test/unit/issue_import_test.rb:89]:
"Tracker cannot be blank" not found in "Tracker doit être renseigné(e)
Statut doit être renseigné(e) "
```

What I do is:

```
$ rake db:drop db:create db:migrate redmine:plugins:migrate RAILS_ENV=test REDMINE_LANG=en
....
$ rake redmine:load_default_data RAILS_ENV=test REDMINE_LANG=en
Default configuration data loaded.
$ rake test
....
```

I happens about once in three runs.
Redmine Version is 3.3.0.

Setting REDMINE_LANG for rake test doesn't help.

Any Ideas?

Associated revisions

Revision 15824 - 2016-09-08 16:25 - Toshi MARUYAMA

Merged r15511 from trunk to 3.3-stable (#22951, #23558)

Set default language in import tests.

Revision 15828 - 2016-09-08 17:01 - Toshi MARUYAMA

Merged r15512 from trunk to 3.3-stable (#22951, #23558)

Include required module.

History

#1 - 2016-09-08 16:20 - Toshi MARUYAMA

- Subject changed from running rake test might result in strange failure to IssueImportTest#test_should_not_import_with_default_tracker_when_tracker_is_invalid fails randomly

- Category set to Code cleanup/refactoring

- Target version set to 3.3.1

#2 - 2016-09-08 20:14 - Toshi MARUYAMA

- *Status changed from New to Closed*

- *Resolution set to Fixed*

Merged [r15511](#) and [r15512](#) from trunk.
Thanks for pointing out.
