Resolution:	Wont fix		
Description			
Hi!			
Can you please add a google translate plugin? That may translate the whole page?			
Thanks!

What is "Google Translate Pulgin"?

#2 - 2016-09-08 07:41 - Roniel Baldivas

It is a code snippet that you can add to redmine website and then after you add this, redmine will have a google translate.  
It will automatically translate the whole website depending on what language you select on the drop down menu.  
Please watch the video in the link below for more information.

<https://www.youtube.com/watch?v=Ey9gyrhiZWo>

Thanks.

Where is official documentation?

#4 - 2016-09-08 09:00 - Roniel Baldivas

Sorry. It is my first time to ask for feature and I don't know what official documentation you where asking.  
Can you please elaborate what documentation you are asking for?  
I think the link below would help.
