

Redmine - Feature #2405

Enable tracker update on issue edit form

2008-12-29 04:59 - Kihyun Yun

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:	0.9.0		
Resolution:	Fixed		
Description			
How can I change the tracker of issue?			
I 've patched to enable this feature. It is required because most of issuers of issue do not have whole knowledge of project. Some reporter created issues with wrong tracker. Especially we have 7 trackers for my environment.

Revision 3108 - 2009-11-29 20:46 - Jean-Philippe Lang

Enable tracker update on issue edit form (#2405).

Revision 3109 - 2009-11-29 21:00 - Jean-Philippe Lang

Adds tracker update to context menu and bulk edit form (#2405).

Revision 3111 - 2009-11-30 20:18 - Jean-Philippe Lang

Fixes context menu broken by r3109 (#2405).

Revision 3113 - 2009-12-02 20:07 - Jean-Philippe Lang

Fixes tracker update on context menu (#2405).

History

#1 - 2009-03-02 03:19 - Kevin Woo

Tested on v0.8.1 @ [r2471](#) and it works well. Exactly what I was looking for. Thanks!

#2 - 2009-04-14 06:23 - Roman Surikov

Tested on 0.8.2.stable. Works. Thanks.

#3 - 2009-08-12 17:06 - Michael Cassano

Tested on 0.8.4.stable.2835, works, thanks.

#4 - 2009-08-14 12:45 - Daniel Selinger

vote for next release

I modified this a little bit though. Made the Tracker Input the first field in the "(more)" extra-section when updating Issues.

I am in favor of adding this feature. Deleting an issue and resubmitting it under the correct tracker isn't much fun.

#6 - 2009-10-31 23:47 - Brian DeVries

+1

As a question, I know that you can change the tracker via the "Move" command, though the user has to have the "Move Issues" permission checked; this permission is not given to the default "Developer" user profile. It does make more sense to me to consider the option to change the tracker as an "update," and use "move" to change the issue's project. Of course, when moving the issue to a new project, we may want to change the tracker as well, so that option should be left there. But from a use case standpoint, I don't see why changing the tracker for an issue within the same project is considered a "move" rather than an "update." Could one of the developers enlighten me on this? Is there any reason not to allow an update to change the tracker?

As far as this ticket goes, I'm in favor of adding this; I'm just curious what the developers' reasoning was for placing the tracker change option only under "move," more out of curiosity than anything else.

#7 - 2009-11-18 12:28 - S Reid

Does this patch also enable the tracker to be changed on the right click menu on the list of issues page ?

#8 - 2009-11-29 20:42 - Jean-Philippe Lang

- Subject changed from *To enable change tracker on editing* to *Enable tracker update on issue edit form*
- Status changed from *New* to *Closed*
- Target version set to *0.9.0*
- Resolution set to *Fixed*

Feature added in [r3108](#).

Tracker can now be changed when editing an issue.

#9 - 2009-11-30 08:26 - Alexey Palazhchenko

- Status changed from *Closed* to *Reopened*
- Assignee set to *Jean-Philippe Lang*

Sorry, but this commit broke functional tests:

```
test_context_menu_multiple_issues_of_different_project (IssuesControllerTest):
NoMethodError: You have a nil object when you didn't expect it!
The error occurred while evaluating nil.trackers
    app/controllers/issues_controller.rb:426:in `context_menu'
    /test/functional/issues_controller_test.rb:1136:in `test_context_menu_multiple_issues_of_different_project'
```

#10 - 2009-11-30 08:31 - Alexey Palazhchenko

Actually, it was [r3109](#).

#11 - 2009-11-30 20:12 - Jean-Philippe Lang

- Status changed from *Reopened* to *Closed*

Fixed in [r3111](#).

#12 - 2009-11-30 23:14 - Mischa The Evil

Jean-Philippe Lang wrote:

Fixed in [r3111](#).

Jean-Philippe,

I might be wrong here but I think you've made a typo in [r3111](#), source:/trunk/app/views/issues/context_menu.rhtml@3111#L21 should be changed from:

```
<% unless @tracker.nil? %>
```

to:

```
<% unless @trackers.nil? %>
```

Currently, with [r3111](#) the tracker-option does not showup in the contextual menu ever since @tracker.nil? always returns true somehow.

#13 - 2009-12-02 20:01 - Jean-Philippe Lang

Oh, sorry. Fixed in [r3113](#).

#14 - 2009-12-02 20:30 - Mischa The Evil
