Target version:	3.3.2			

Description

Here is a patch which allows only vertical reordering for positioned items:

```
From: Vincent Robert <vincent.robert@nanego.com>

Hi Toshi

As we are sorting elements in a column, we should add this constraint. If we don't specify the axis, we can drag the item to the right or to the left, which does not make sense in our case ; it's cleaner to move them vertically only.

Please try to sort elements with and without the "axis" attribute. You will instantly see the difference.

Thank you
