

## Redmine - Defect #24213

### % Done is not correct for parent to parents when calculated from subtasks

2016-10-30 22:32 - C-O L

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Issues planning	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	3.3.0
<b>Resolution:</b>	Duplicate		
<b>Description</b>			
When having more than two levels of issues then when the % done is calculated for the top level parent then the subtasks on the first level always have equal weight instead of having a weight based on their total estimated hours.			
Example:			
<pre>  P          - top level parent task (40)        = total estimated time  / \  /   \ A1    B1    - 1st level subtasks (10) (30)  = total estimated time    \      \     \      \ A2 A3 B2 B3 - 2nd level subtasks 3  7  9  21 = estimated times for 2nd level subtasks</pre>			
The 2nd level subtasks each have an estimated time (A2=3h, A3=7h, B2=9h, B3=21h). The A subtree has a total of 10h and the B subtree has a total of 30h.			
The 1st level subtasks calculate their % done using (sum of subtasks % done * estimated time)/(total estimated time). So if A2 is closed(100%) then A1 has a done of 30 (A2+A3=10h, and 3h of 10h = 30%).			
The total estimated time for the top level parent P is 40h. When only A2 is closed then the correct done for P should be 7.5 (3h of 40h), but it is actually showing the done for A1 divided by the total number of 1st level subtasks which is 30/2=15%.			
I have created a patch that solves the problem, and it seems to work fine for us that have up to three levels of tasks and no more than 10 nodes total in a tree.

Is duplicate of Redmine - Defect #23511: Progress of parent task should be ca...		<b>Closed</b>	

### History

#### #1 - 2016-10-30 23:48 - Marius BĂLTEANU

Did you try the fix from [#23511](#)?

#### #2 - 2016-10-31 03:27 - Toshi MARUYAMA

- Status changed from New to Needs feedback

#### #3 - 2016-11-08 09:56 - C-O L

Yes [#23511](#) should fix this problem, sorry I didn't find that issue before posting.

#### #4 - 2016-11-21 14:02 - Toshi MARUYAMA

- Status changed from Needs feedback to Closed

- Resolution set to Duplicate

#### #5 - 2016-11-21 14:02 - Toshi MARUYAMA

- Is duplicate of Defect #23511: Progress of parent task should be calculated using total estimated hours of children added
