

Redmine - Defect #24530

Max Length issue in patch file

2016-12-05 07:31 - Nishchal Jain

Target version:	Affected version:
Resolution: Invalid	

Description

Steps:

1. Redmine already provides/validates Trackers name max length in Trackers model which is:
trackers.rb : validates_length_of :name, :maximum => 30
2. I need to change max length for name from 30 to 50 in patch file so that main model file should not impact.
3. I created tracker_patch file and used validation in that but it doesn't impact.

Please let me know how I will change that validation in patch file.

Regards
Nishchal
