

Redmine - Patch #25139

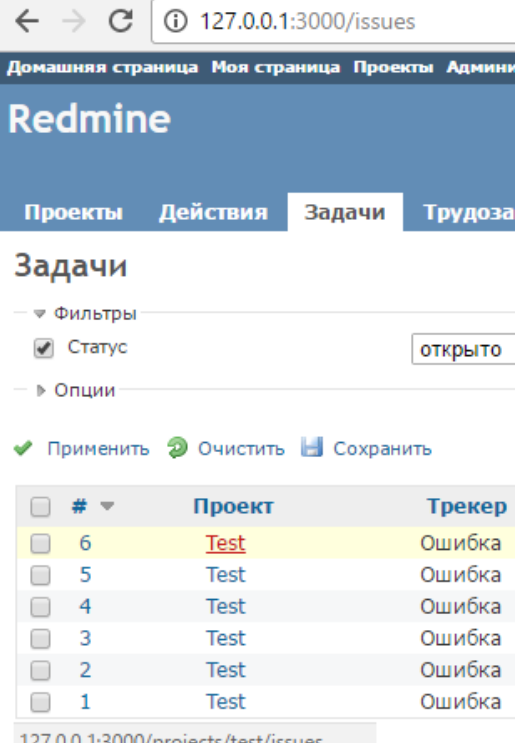

Project link on issues list, now redirects to project specific issues

2017-02-21 14:17 - Andrey Lobanov (RedSoft)

Status: New	Start date:
Priority: Normal	Due date:

Category: UI	Estimated time: 0.00 hour
Target version:	

Description

Project link on issues list, now redirects to projects/:project_id/issues instead of projects/:project_id

127.0.0.1:3000/projects/test/issues

History

#1 - 2017-02-22 13:12 - Andrey Lobanov (RedSoft)

I think it's way more useful than redirecting to project overview page.

#2 - 2017-02-22 21:53 - Mischa The Evil

I'm not sure if this patch should be integrated as these value links (projects, users, and versions) were all initially supposed to be linking to the resource itself (its show view). See [r1969](#) and [#3086](#).
