Description

Redmine has this hook when displaying a version:

```
app/views/versions/show.rhtml:
  * [ 48] :view_versions_show_bottom, :version => @version
```

However, a similar hook does not exist for the Roadmap for a project. Perhaps:

```
app/views/projects/roadmap.rhtml:
  * [ 27] :view_projects_roadmap_version_bottom, :version => @version
```
