I confirmed the problem.

Suppose the following situation. All issues except Issue F have some relations.

<input type="checkbox"/>	#	Tracker	Status	Subject
<input type="checkbox"/>	24	Bug	New	Issue F (no relation)
<input type="checkbox"/>	23	Bug	New	Issue E (related to both open and closed issue)
<input type="checkbox"/>	22	Bug	Closed	Issue D (related to open issue)
<input type="checkbox"/>	21	Bug	New	Issue C (related to closed issue)
<input type="checkbox"/>	20	Bug	New	Issue B (related to open issue)
<input type="checkbox"/>	19	Bug	New	Issue A (related to open issue)

"Related to any open issues" is expected to list issues which has "related to" relations open issues. It works fine.

<input type="checkbox"/>	19	Bug	New	Issue A (related to open issue)

"Related to no open issues" is expected to list issues which don't have "related to" relations to open issues. But actually it lists all issues in the project.

With the proposed patch by Kevin Fischer, "Related to no open issues" works as expected.

### #2 - 2017-04-06 13:44 - Go MAEDA

- Target version changed from Candidate for next minor release to 3.2.6

Let's merge this fix to the core. Setting target version to 3.2.6.

### #3 - 2017-04-06 18:25 - Marius BĂLTEANU

Go MAEDA, it is the expected behaviour for the filter "Related to no open issues" to return an issue without relations (Issue F from your screenshots)? From my point of view, only "Related to none" should return issues with no relations.

### #4 - 2017-04-06 19:01 - Jean-Philippe Lang

- Status changed from Confirmed to Resolved

- Assignee set to Jean-Philippe Lang

- Resolution set to Fixed

Patch committed, thanks.

Yes that was the expected behaviour. Maybe we would have to add another filter like "related to closed issues only" if it's needed.
