**Description**

Hi,

I've added few customer fields (data type) to my issue view. Now I would like to fill those fields with some data in workflow.

I was looking for resolution but without success.  
I tried to assign new value to customer field no 6 like that:

```
custom_field_values.each do |value|
  if value.custom_field_id==6
    value.to_s="test"
  end
end
```

or like that :

```
custom_field_values[6] = "test"
```

but it is not working. I cannot find any method to do this.

Can you give me some advice?

best regards

#### History

**#1 - 2017-04-19 09:29 - Krzysztof Śliwa**

- Status changed from New to Resolved

OK, the resolution is easy.

just have to use @issue.custom\_field\_values={{6=>'test'}}

**#2 - 2017-05-17 17:42 - Toshi MARUYAMA**

- Description updated

**#3 - 2017-05-17 17:43 - Toshi MARUYAMA**

- Category deleted (Custom fields)

- Status changed from Resolved to Closed

- Resolution set to Invalid
