

## Redmine - Defect #25822

### 'Spent time' report is timezone-dependent (which it should not)

2017-05-12 07:10 - Sergey User

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Time tracking	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	3.3.2
<b>Resolution:</b>	Duplicate		
<b>Description</b>			
<p>It appears that 'Spent time' report is timezone-dependent. That means it may show data differently depending on current TZ setting of the user. This results in weird artifacts, like:</p> <ol style="list-style-type: none"><li>1. Selecting 'past month' filter may still show two months (some hours which were reported at the end of the past/beginning of the current month will show either in past month or current month, depending on the TZ setting)</li><li>2. 'past month', if broken down by 'Months', may show more than one month.</li></ol> <p>This does not appear to be correct - Dates should be accounted for regardless of current TZ setting. For instance, if user reported Date as 2017-03-01, it should remain the same under all settings, and may only be visible for this month (and not in February 2017, for instance).</p>
