Target version:		Affected version:	
Resolution:	Invalid		

Description

We have a problem when we want to display all projects. Everything work correctly except this one.

My desktop environment :

Fedora 10
Firefox 3.0.5

redmine environment :

Centos 5.2
MySQL 5.1
glassfish 3 prelude

```
/opt/glassfishv3-prelude/glassfish/modules/jruby/bin/jruby about
JRuby limited openssl loaded. gem install jruby-openssl for full support.
```

http://wiki.jruby.org/wiki/JRuby_Builtin_OpenSSL

About your application's environment

```
Ruby version      1.8.6 (java)
RubyGems version  1.3.1
Rails version     2.1.2
Active Record version  2.1.2
Action Pack version  2.1.2
Active Resource version 2.1.2
Action Mailer version 2.1.2
Active Support version 2.1.2
Edge Rails revision unknown
Application root   /opt/redmine-0.8.0
Environment       development
Database adapter  jdbcmysql
Database schema version 101
```

production.log :

```
ActionView::TemplateError (undefined method `project_status_options_for_select' for #<ActionView::
Base:0xc77e26>) on line #10 of admin/projects.rhtml:
7: <% form_tag({}, :method => :get) do %>
8: <fieldset><legend><%= l(:label_filter_plural) %></legend>
9: <label><%= l(:field_status) %> </label>
10: <%= select_tag 'status', project_status_options_for_select(@status), :class => "small", :oncha
nge => "this.form.submit(); return false;" %>
11: <label><%= l(:label_project) %></label>
12: <%= text_field_tag 'name', params[:name], :size => 30 %>
13: <%= submit_tag l(:button_apply), :class => "small", :name => nil %>
```

History

#1 - 2009-01-27 18:49 - Jean-Philippe Lang

Don't have a clue on this.

The method `#project_status_options_for_select` is properly defined in `AdminHelper` and thus automatically available to the view.

Did you make any change to the app?

#2 - 2009-01-27 20:56 - ccc ccc

Yes, I changed a file `request.rb` because I wanted to use redmine with https but without apache modproxy.

But it wasn't a source of problems. Probably we had some problem with filesystem because when I reinstalled redmine everything is ok. So you can close this ticket.

#3 - 2009-01-29 17:55 - Jean-Philippe Lang

- *Status changed from New to Closed*

- *Affected version (unused) deleted (0.8.0)*

- *Resolution set to Invalid*

Thanks for the feedback.
